**BRINGING CYBER
TO THE PEOPLE**

The digital era in general and cyberspace in particular present us with various opportunities, new tools and opportunities. Yet, when coupled with the human race's increasing dependency on said technology to survive and thrive, the new technological era presents unprecedented challenges, threats and even dangers in scope and intensity.

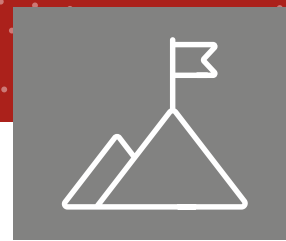

CyBureau seeks to provide a wide range of cyber educational solutions and tools to empower the everyday internet and technology user, regardless of their age, background, or educational level, no prior tech knowledge required.

Established in 2019 by Tal Pavel PhD and comprising entities in Israel and Romania, **CyBureau** (CyBureau S.R.L.) is an organization seeking to become a hub for cyber education and empowerment, delivered through tailormade lectures, courses and workshops, as requested by each organization and enterprise, even those self-proclaimed as non-tech savvy. By connecting knowledge and technology, **CyBureau** provides added value, creates an impact, inspires, and enables more enlightened usage of technology as it becomes a greater, more interwoven part of daily human life.

OUR VISION

Enable everyone, everywhere, to become empowered, rather than inhibited by advances and innovations in the worlds of cyber and technology. To impart and instil knowledge on the internet and cyber worlds and create a community of digital experts ready to take the digital era by storm.

OUR MISSION

Together with a wide range of global experts, researchers and consultants all related to the internet and the cyberspace, CyBureau is on a mission to create and deliver the best possible cyber knowledge suite that meets the dynamic needs of the citizens of the digital era. Better cyber knowledge, awareness, and empowerment for all.

Empower yourself with cyber knowledge, skills and guidance only with CyBureau S.R.L.
